

DC Central Kitchen Accessibility Statement

DC Central Kitchen is committed to providing a website that is accessible to everyone, and to complying with all applicable federal, state, and local laws and regulations governing accessibility to persons with disabilities, including the Americans with Disabilities Act (ADA).

To further this commitment, we aim to implement the relevant best practices and standards recommended by the [Web Content Accessibility Guidelines 2.1, Level AA](#), which provide standards for making web content more accessible for all visitors, including people with disabilities.

Continuous Monitoring of Content

In the interest of staying ahead of emerging technology, the DC Central Kitchen website is tested regularly with the latest software and methodologies to maintain accessible content for all. Specifically, the DC Central Kitchen website is tested with assistive technology including screen reader software, alternative input (keyboard only) functionality, color contrast analyzers and magnification software. In addition to accessibility compatibility testing, the DC Central Kitchen website is also tested for usability. It is our goal to not only meet the minimum accessibility standards, but to exceed them by ensuring that the website is also usable. We are committed to addressing any issues that may arise while accessing our digital content and will readily provide assistance as needed if immediate solutions are not available.

Do You Need Assistance?

Our efforts to enhance and maintain the accessibility of our websites are ongoing. If you are having issues accessing any information on our website, please contact us at accessibility@dccentralkitchen.org or by phone at 202-234-0707. Your experience and ideas are our highest priority. No issue is too small, and we welcome your feedback.

Endorsement

Endorsed by [Ablr](#), an accessibility company who employs and utilizes people who are blind and visually impaired in providing audits, training and consulting for all digital content.
